

### DESCRIPTION

Servoknitclean 22 Plus is formulated from light coloured mineral base stocks having excellent oxidation resistance. This oil is fortified with “**state of the art**” additive package for guaranteeing excellent scourability (removal of oil stains from the fabric) even by adopting cold wash scouring procedure instead of hot scouring methods by knitting mills.

### APPLICATION

Servoknitclean 22 Plus is specifically recommended for use in modern knitting industry for automatic circular knitting machines. This oil is also used in knitting machines by using manual oiling and mist lubrication devices. The oil is suitable for cotton and synthetic blend fabrics. The oil is having excellent scourability performance in both cold and hot scouring conditions.

### PERFORMANCE BENEFITS

- Good oxidation stability.
- Excellent antirust and lubricity characteristics.
- Excellent non-foaming and mist lubricating qualities.
- Proven stain removability.
- Improved lubrication of various moving parts.
- Excellent scourability even by adopting cold wash.
- Saves substantial energy by way of cold wash instead of hot wash.

### MANUFACTURERS APPROVAL

Approved by Textile Committee, Tirupur, Ministry of Textiles, Govt of India.

### CHARACTERISTICS

ISO VG	22
Kinematic Viscosity 40°C @ cSt	19.5 – 24.5
Flash Point (COC), °C, Min	160
Rust Test, D-665-B	Pass
Colour, ASTM, Max	2.5
Pour Point, Deg C, Max	(-) 6

### HEALTH & SAFETY

These oils are unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of industrial and personal hygiene are maintained.
